

February 3rd, 2023

To Our Valued Customers:

Please note that as part of the Climate Change Plan aimed at reducing greenhouse gas emissions and mitigating the effects of climate change, the Federal Government of Canada is increasing the tax on carbon emissions effective **April 1<sup>st</sup>, 2023**.

This increase effects multiple aspects of the economy and impacts costs across our entire supply chain ranging from fuel for transportation, to energy costs for heating, to equipment purchases and maintenance.

As a result of this change, we have incurred an increase in our overall costs. As such, it is necessary for us to increase our current Carbon Surcharge to **2.20%** effective **April 1<sup>st</sup>, 2023** for all shipments handled across our network.

Please be assured that Clarke Transport Inc. is constantly exploring ways to reduce our carbon footprint and minimize the impact on our customers. We will continue to provide quality services while keeping our prices competitive.

If you require further information, please do not hesitate to contact your Clarke Transport representative.

As always, Clarke Transport Inc. appreciates your business and continued support.

Sincerely,

A handwritten signature in blue ink that reads "Kevin Tait". The signature is written in a cursive style.

Kevin Tait  
Vice President / General Manager
